yourself for physical use; for etheric resuscitation of the powers of your being which you had in the Sun before the world was. It will help you in the resuscitation of the mental memories of your associatipn with the Ascended Masters and Avatars, and you will feel the resuscitation of the joy, buoyancy, happiness, vitality and perfection of the God-free Beings in Their service to love and life. That you experience all this and more is the wish of your Friend -

EL MORYA

In the Name, Love, Wisdom, Power and Authority of my own Beloved "I AM" Presence, I call to Thee, Beloved Ascended Master El Morya, to seal me in Thy Heart Flame of the WILL OF GOD made manifest; and to charge my being and world with Thy Strength, Courage and Power to give the OBEDIENCE necessary for this activity to be made manifest in my daily experience with the Joy and Happiness of the Cosmic Christ. I know Thy great Love will fulfill this call for me instantly, and I accept it MANIFEST right now - forever sustained.

Beloved Children:

In My capacity as Overlord of the Chohans of the Rays, I am delegated with the authority and responsibility of supervising the development of every lifestream evolving under the specific benediction and blessing of each of the Rays. The natural evolution of the lifestreams make each one heir to certain impersonal blessings and stimuli which, like the sun, air, and water, are equally dispersed without the measure of personal merit, as in the statement: "The sun shines and the rain falls on the just and unjust alike." The radiating centers through which these blessings flow do not delegate any specific intensity to any particular individual.

The cosmic energies that flow through My aura contain within themselves those spiritual gifts to the evolutions of Earth and require no particular attention of My conscious self in the drawing and radiating of their substance to those channels which are provided to be faucets of radiation in the world of men. Each Chohan then receives through My Spiritual Body or Aura the gifts, substance and pressure of Flame required by Him to activate and expand His Ray. He, in turn, becomes responsible for the direction and ultimate use of this outpouring through the lifestreams under His supervision. The Chohan of the Ray personalizes the Gifts of the Holy Spirit to a much greater degree than I do, and it becomes His responsibility to utilize the substance,

ts and powers of that Ray in a manner that l most efficaciously benefit the evolution of life in the nature kingdom, the elemental gdom, and the kingdom of mankind who follow ladder of evolution along His Ray.

Therefore, when any one of the Chohans chooses single out any member of unascended mankind d spend some of the precious energies of His n allotment from the Cosmic Storehouse in ourishing the consciousness of that one, He ust, of necessity, ask permission of My Office, nd I, after consulting the cosmic record of the ifestream and the potential service that could e rendered by such an one if the grant were given, am able to pass upon the wisdom of the application and give consent. BUT, even with the consent, the Chohan or Sponsor is fully aware that He Himself must make up to the Universal Cosmic Law whatever energy, time, love, effort and gifts He delegates or bestows upon such an one - if that lifestream shows no profit.

You see, beloved ones, when an individual gains his ascension, the full-gathered cosmic momentum of his whole life's endeavors are voluntarily and lovingly contributed to the One Cosmic Consciousness to which every Being in the Ascended Realm has access at any time for any knowledge He may require. However, for any service rendered below the Ascended Master state He is required to offer a pledge to the Cosmic Law not only for the amount He wishes to draw, but any additional amount of redeemed energy to warrant the expenditure of both time and service.

The conscious chelas, on whom this priceless energy is expended, are also held responsible,

but to a lesser extent than the Master, it being evident above as below that the more knowledge We possess, the more responsible We are for its use. In case the 'investment' does not bear fruit to balance the expenditure, I, too, share in the responsibility of My Chohans and it is for this reason that I have deliberately prepared a balance to the Universal Law through these many years of instruction and endeavor over and above the cosmic duties of My Office.

Blessings and Love,

MAHA CHOHAN
